San Jacinto Avenue Street Rehabilitation to Start September 1, 2017

Scott Miller
Mayor

The City of San Jacinto announced on Tuesday, August 15, 2017 that the much anticipated street re-construction and revitalization of San Jacinto Avenue, from 7th Street to Midway, will commence on September 1, 2017.

Mayor Pro Tem

The project consists of tearing up, regrinding and replacing the degraded San Jacinto Avenue and rebuilding all four lanes of the 1.1 mile street segment. The project will commence on September 1, 2017 and will be completed by the end of the calendar year.

Funded by the City of San Jacinto, Measure "A", and a federal grant, the \$512,400 project is another boon for the City's economic development outreach and attraction, as well as a beacon for developers. "San Jacinto Avenue is a well-traveled internal connector that needs care and attention. It is also one of our most attractive business corridors that will see a handful of new retail attractions coming to it very soon, said City Manager Rob Johnson. "Improving our streets and infrastructure is a must."

The City will be using social media, such as its website, facebook, twitter and electronic newsletter to provide construction updates. Motorists and community members will soon see electronic construction signage and posted construction signs along the designated construction area from 7th Street to Midway. Alternative routes should be sought and reminders heeded to drive safely through the construction zone.

Construction on the 1.1 mile, 4 lane stretch of roadway, is expected to be completed by All American Asphalt by December 2017, weather permitting.

The City is also launching #advanceSJ, which will be seen throughout its economic development materials. #advanceSJ, much like #GoSanJacinto, will help to spotlight amenities and bring attention to the improvements being made for the community by the City and its partners.
